District Improvement OK

Value-Added Measure
✓ = Met

The District Report Card for the 2010-2011 school year shows the progress districts have made based on four measures of performance.

Indicators

Performance Index

Adequate Yearly Progress

Value-Added

The combination of the four measures is the basis for assigning state designations to districts, buildings and community schools.

- The six designations are
- Excellent with Distinction
 - Excellent
 - Effective
 - Continuous Improvement
 - Academic Watch
 - Academic Emergency

To meet a test indicator for grades 3-8 and 10, at least 75% of students tested must score proficient or higher on that test. Other indicator requirements are: 11th grade Ohio Graduation Tests, 85%; Attendance Rate, 93%; Graduation Rate, 90%.

State Indicators

Percentage of Students at and above the Proficient Level

| | Your District 2010-2011 | Similar Districts* 2010-2011 | State 2010-2011 |

Any result at or above the state standard is indicated by a ✓
 -- = Not Calculated/Not Displayed when there are fewer than 10 in the group.
 * Similar Districts are based on comparing demographic, socioeconomic and geographic factors. ** Cumulative results for students who took the tests as 10th or 11th graders.

Your District's Assessment Results Over Time

All students in the district for a full academic year are included in the results.

The State Indicators are based on state assessments, as well as on attendance and graduation rates. To earn an indicator for Achievement or Graduation Tests, at least 75% of students must reach proficient or above for the given assessment. For the 11th grade Ohio Graduation Tests indicators, a cumulative 85% passage rate for each assessment is required.

* Cumulative results for students who took the tests as 10th or 11th graders.

Performance Index

Performance Index Calculations for the 2010-2011 School Year

The Performance Index reflects the achievement of every student enrolled for the full academic

year. The Performance Index is a weighted average that includes all tested subjects and grades and untested students. The greatest weight is given to advanced scores (1.2); the weights decrease for each performance level and a weight of zero is given to untested students. This results in a scale from 0 to 120 points. The Performance Index can be compared across years to show district achievement trends.

**Performance Level Across Grades
3-8 and 10 for all Tested Subjects**
(Includes every student enrolled in
the district for a full academic year)

| | Percentage | X | Weight | = | Points |
|-------------|------------|---|--------|---|--------|
| Untested | 0.1 | X | 0.0 | = | 0.0 |
| Limited | 4.2 | X | 0.3 | = | 1.3 |
| Basic | 9.4 | X | 0.6 | = | 5.6 |
| Proficient | 35.3 | X | 1.0 | = | 35.3 |
| Accelerated | 28.3 | X | 1.1 | = | 31.2 |
| Advanced | 22.6 | X | 1.2 | = | 27.2 |

Your District's Performance Index **100.5**

Legend

- +** = Above Expected Growth
- ✓** = Met Expected Growth
- = Below Expected Growth

Your district's Value-Added rating represents the progress your district has made with its students since last school year. In contrast, achievement scores represent students' performance at a point in time. A score of "Above" indicates greater than one year of progress has been achieved; "Met" indicates one year of progress has been achieved; "Below" indicates less than one year of progress has been achieved.

Adequate Yearly Progress (AYP)

| Adequate Yearly Progress Grades 3-8 and 10 Reading and Mathematics | | All Students | Economically Disadvantaged | Asian/Pacific Islander | Black, non-Hispanic | American Indian/Alaska Native | Hispanic | Multi-Racial | White, non-Hispanic | Students with Disabilities | Limited English Proficient |

| Mathematics Participation: | Met |
| Graduation Rate: | Met |
| Attendance Rate: | Met |
| AYP Determination for Your District: | Met |

Legend

This legend explains terms used in the above chart that describe whether each student group met this year's AYP goals.

For test indicators, AYP can be met in one of four ways:

- 1) meeting the AYP targets with current year results;
- 2) meeting the AYP targets with two-year combined results;
- 3) meeting the improvement requirements of Safe Harbor;
- 4) meeting the AYP targets with projected results.

For non-test indicators, AYP can be met in one of three ways:

- 1) meeting the AYP targets with current year results;
- 2) meeting the AYP targets with two-year combined results;
- 3) making improvement over the previous year.

* The non-test indicators used for overall AYP (Attendance Rate and Graduation Rate) are reevaluated only for the All Students subgroup.

| | |
|----------------|---|
| N/A | Not applicable. |
| NR | Not Required - This indicator was not evaluated for this subgroup because the subgroup size was smaller than the minimum number needed to achieve a statistically reliable result. 30 students is the minimum size for the proficiency and non-test indicators, while 40 is the minimum size for the participation rate indicators. |
| Met | This subgroup met AYP for this indicator with its current year, two-year combined, Safe Harbor, or growth measure results. |
| Not Met | This subgroup did not meet AYP for this indicator. |

Adequate Yearly Progress (AYP) is a federally required measure. Every school and district must meet AYP goals that are set for Reading and Mathematics

Proficiency and Participation, Attendance Rate, and Graduation Rate. These goals are applied to ten student groups: All Students, Economically Disadvantaged Students, Asian/Pacific Islander Students, Black, non-Hispanic Students, American Indian/Alaska Native Students, Hispanic Students, Multi-Racial Students, White, non-Hispanic Students, Students with Disabilities (IEP), and Students with Limited English Proficiency (LEP). If any one of these groups does not meet AYP in Reading or Mathematics Proficiency, or in Participation, Attendance Rate, or Graduation Rate, then the school or district does not meet AYP. Not meeting AYP for consecutive years will have both federal and state consequences. Federal consequences could include a school or district being identified for improvement. State consequences could include a reduction in the state's rating designation.

2009-2010 Graduation Rate Information

| | | | | |
|------------------------|---|------------------------------------|-------------------------------------|----------------------------------|
| All Students >95.0% | American Indian/ Alaska Native -- | Asian or Pacific Islander -- | Black, non-Hispanic -- | Econ. Disadvtdgd 81.8% |
| Hispanic -- | Limited English Proficient -- | Multi-Racial -- | Students with Disabilities -- | White, non-Hispanic >95.0% |

The disaggregated graduation rates of your school are provided for informational purposes only and are not used for your AYP determination.

State and Federally Required District Information

| 1069 | 1.1% | -- | 1.1% | -- | -- | 96.5% | 21.9% | -- | 15.7% | -- |

-- = Not Calculated/Not Displayed when there are fewer than 10 in the group.

Number of Limited English Proficient Students Excluded from Accountability Calculations: --

Under the federal No Child Left Behind Act, states are required to report certain data about schools and teachers. Data presented here are for reporting purposes only and are not used in the computation of the state designation for districts and schools.

Federally Required School Teacher Information

| | All Schools in Your District | High-Poverty Schools Located in Your District* | Low-Poverty Schools Located in Your District* |
|---|------------------------------|--|---|
| Percentage of teachers with at least a Bachelor's Degree | 100.0% | 0.0% | 100.0% |
| Percentage of teachers with at least a Master's Degree | 59.3% | 0.0% | 56.8% |
| Percentage of core academic subject elementary and secondary classes not taught by highly qualified teachers | 2.5% | -- | 3.4% |
| Percentage of core academic subject elementary and secondary classes taught by properly certified teachers | 97.5% | -- | 98.9% |
| Percentage of core academic subject elementary and secondary classes taught by teachers with temporary, conditional or long-term substitute certification/licensure | 0.0% | -- | 0.0% |

-- = Not Calculated/Not Displayed when there are fewer than 10 in the group.

*High-poverty schools are those ranked in the top quartile based on the percentage of economically disadvantaged students. Low-poverty schools are those ranked in the bottom quartile based on the percentage of economically disadvantaged students. A district may have buildings in both quartiles, in just one quartile or in neither quartile.

Schools in *School Improvement*

Name of the School & Years in Improvement

Name of Schools Identified for Improvement and Years in Improvement Status

No Schools Identified for Improvement in District.

Generally, a school will enter School Improvement (SI) after missing AYP for two consecutive years, and it can exit SI only after meeting AYP for two consecutive years.

Every school in SI has to create an Improvement plan. If a school in SI receives federal funds, it may have to offer Public School Choice and/or Supplemental Educational Services.

Being in SI for three or more years requires more extensive corrective actions and, eventually, restructuring.

The National Assessment of Educational Progress (NAEP),

often referred to as "The Nation's Report Card," is the only nationally representative and continuing assessment that enables the comparison of performance in Ohio and other states in various subject areas. Schools and students within each state are selected randomly to be a part of the assessment. Not all students in the state or in a particular school take the assessment. Data are reported at the state level only, and there are no individual student or even school summary results. The assessments are conducted in mathematics, reading, science, writing, the arts, civics, economics, geography and U.S. history.

To view Ohio's most recent NAEP results, go to:

<http://education.ohio.gov>
and search for key word "NAEP"

Determining Your District's Designation

Determining your district's report card designation is a multi-step process. The first step is to determine a preliminary designation, which is based on the following components: 1) the percentage of indicators met, 2) the performance index and 3) AYP determination.

| Indicators Met | | Performance Index | | AYP Designation | | Preliminary Designation |
|----------------|-----|-------------------|-----|-----------------|---|-------------------------------------|
| 94%-100% | or | 100 to 120 | and | Met or Not Met | = | Excellent or Effective |
| 75%-93.9% | or | 90 to 99.9 | and | Met or Not Met | = | Effective or Continuous Improvement |
| 0%-74.9% | or | 0 to 89.9 | and | Met | = | Continuous Improvement |
| 50%-74.9% | or | 80 to 89.9 | and | Not Met | = | |
| 31%-49.9% | or | 70 to 79.9 | and | Not Met | = | Academic Watch |
| 0%-30.9% | and | 0 to 69.9 | and | Not Met | = | Academic Emergency |

The preliminary designation results from identifying the higher value between the percentage of indicators met by your school and your district's performance index. AYP then is evaluated to determine its effect on the preliminary designation. There are two ways in which AYP can affect the preliminary designation.

1. If a district meets AYP in the current year, it can be rated no lower than Continuous Improvement.
2. If an Excellent or Effective district does not meet AYP for the same two (or more) subgroups for three consecutive years, its rating will be decreased to Effective or Continuous Improvement (respectively).

Once the preliminary designation is determined, Value-Added, the fourth measure in the accountability system, is evaluated to determine the impact (if any) on the district's final designation.

1. If your district's designation either is increased or decreased due to AYP, Value-Added has no impact on the designation and the preliminary designation becomes the final designation.
2. If your district experiences above expected growth in the current year, your district's final designation will increase by one designation.
3. If your district experiences below expected growth for at least three consecutive years, your district's final designation will decrease by one designation.

| Preliminary Designation | | Value-Added Measure* | Final Designation |
|-------------------------|-----|--|----------------------------|
| Excellent | and | Above expected growth for at least 2 consecutive years | Excellent with Distinction |
| | | Below expected growth for at least 3 consecutive years | Effective |
| Effective | and | Above expected growth for at least 2 consecutive years | Excellent |
| | | Below expected growth for at least 3 consecutive years | Continuous Improvement |
| Continuous Improvement | and | Above expected growth for at least 2 consecutive years | Effective |
| | | Below expected growth for at least 3 consecutive years | Academic Watch |
| Academic Watch | and | Above expected growth for at least 2 consecutive years | Continuous Improvement |
| | | Below expected growth for at least 3 consecutive years | Academic Emergency |
| Academic Emergency | and | Above expected growth for at least 2 consecutive years | Academic Watch |
| | | Below expected growth for at least 3 consecutive years | Academic Emergency |

*In all other cases, Value-Added will have no impact on the designation and the preliminary designation will become the final designation.

2009-2010 Four-Year "On-Time" Graduation Rate Information

| | | | | |
|-----------------------|---|------------------------------------|-------------------------------------|---------------------------------|
| All Students 85.2% | American Indian/ Alaska Native -- | Asian or Pacific Islander -- | Black, non-Hispanic -- | Econ. Disadvtdgd -- |
| Hispanic -- | Limited English Proficient -- | Multi-Racial -- | Students with Disabilities -- | White, non-Hispanic 85.0% |

In 2008, the U.S. Department of Education issued new regulations to require Ohio and all other states to transition to a new graduation rate formula that will provide more consistency in reporting and will allow for comparisons across states. The new formula, referred to as a "four-year, adjusted cohort graduation rate," includes only graduates who earn either a regular or honors diploma anytime within four years of when they first enter the 9th grade, which includes the summer immediately following their fourth year of high school.

The cohort (group) is created by following the progress of individual students from the time they enter high school. The group is adjusted to take into account students who transfer in or out any time over the four years. The graduation rate is calculated by taking the number of students who graduate in four years or less and dividing it by the number of students in the original list of 9th graders, adjusted to include students who move away or move into the school district.

Ohio is required to display the new graduation rate in 2011 to help familiarize the public with how it is created and compares to the existing rate. Beginning in 2012, this new rate will be the official graduation rate for Ohio and will be used for accountability purposes. Ohio also is required to display the new graduation rate by student group (as shown in the table on this page).

The data on this page is for the graduating class of 2010. So that summer graduates can be included, Ohio lags its graduation rate by one year. Next year, the new formula (computed for the graduating class of 2011) will be used in each school or district's AYP calculation and to determine if the school or district met the state indicator for graduation.
